Collab with Carmeuse Americas

We're excited to announce a new collaboration with Carmeuse Americas to collect books for schools in Ghana and Zambia. This project was inspired by the successful book drive organized by the Belgian office to stock the library in San Pedro, Côte d'Ivoire.

Launched on **11 August** and running **until 5 September 2025**, the teams in Virginia and Pittsburgh, have set the goal of 100 books to be sent to **STMA Primary School** in Ghana and **Muwaya Primary School** in Zambia.

This marks the first of many meaningful partnerships with our fellow Carmeusians in the U.S. If you have books to donate, please reach out to **Denise Hutchison** or **Rachel Stewart**.

UltraLime stories: Arthur Kighovi

Did you set any personal goals for UltraLime?

My target is 5km per day during the week and minimum 10km per day during the weekends.

How do you fit this into your weekly routine?

When I'm not on a business trip, I usually make sure to walk 5 km at the end of each workday. On weekends, I often invite some friends or family members for long-distance walks.

How do you stay motivated?

I always keep in mind that exercise helps me stay healthy and, through UltraLime, contributes to improving the lives of local communities.

On summer vacation... but still moving!

We'll **share the total kilometres for July and August** in next month's newsletter. In the meantime, let's stay active!

Senegal

News From Around Our Globe

- **Tunisia:** The latest harvest brought in 200 kg of tomatoes and 7 kg of honey, which were shared among the team!
- **Senegal:** An eco-creative workshop, held in partnership with *Echo Bleu*, inspired schoolchildren to protect their seas and beaches through art and environmental education.
- **Zambia:** 59 third-year students from the Copperbelt University School of Mines & Mineral Sciences visited the HLL plant, gaining valuable insights into real-world working operations.
- **Mauritania:** Our team donated food and supplies to ALCAE (Association for the Fight Against Child Abandonment), supporting 63 of the community's most vulnerable children.
