

## What's happened @ CMO

## Welcome Carmeuse South Africa

It's official: We're excited to welcome PB Lime to the Carmeuse family! With nearly 100 years of expertise, this partnership strengthens our network and opens up amazing growth opportunities in Southern Africa.

PB Lime, which will now operate as **Carmeuse South Africa**, produces around 300,000 tons of crude and burnt lime annually, and serves over 200 customers. The company also owns one of the few white limestone deposits in a market dominated by brown lime—an important strategic advantage.

We warmly welcome PB Lime's 143 employees to the Carmeuse family and look forward to building on their proud legacy as we embrace the diversity and dynamism of the Rainbow Nation.

## CLP shines at industry awards

At the 11th Ghana Mining Industry Awards in Accra on 5 December, CLP proudly walked away with two honours:

- **First Runner-Up** for Best Performer in Local Manufacturing of Mine Inputs
- **Second Runner-Up** for Best Performer in Mine Supplies and Services

Congratulations to the team for this well-deserved recognition!

## UltraLime final results

Over six months, participants collectively covered **38,220 km**, raising **\$1 per km**. That's **\$6,370 for each participating country** to fund sustainability projects that benefit local communities.

Why is UltraLime such an important part of our annual calendar? Our General Manager, Olivier sums it up beautifully:

*"Some years ago, the airline Cathay Pacific, which I never took, had a slogan which stuck with me; 'the journey is the destination'. This is very much what I experience when hiking in the countryside or walking in the city. Regardless of the practical purpose of the journey, it brings harmony to my soul, mind, and body; sometimes creativity, too. Ultralime can bring the same for you! And let's not forget that our sweat also raises money to help our local communities and schools."*

Thank you to everyone who participated!
